Courses

【 International Course 】

This course prepares students for the entrance examinations in foreign languages and related faculties in Japan and abroad. Daily interactions with native staff members intensify students' exposure to foreign language acquisition.

【 Sports Course 】

This course offers a solid foundation for students pursuing a career in physical education or sports with extensive training for certifications.

【 Graphic and Media Design Course 】

This course offers students hands on experiences in audio and visual production. Using pro tools and Mac computers, students learn about sound, video, illustration, animation, editing and design.

(continued)

【 Selective Course 】

This course offers concentrations in two areas: Higher Education or Social Welfare. Students pursuing in Higher Education focus on passing the college entrance examinations. Students pursuing in Social Welfare attend hands on training sessions for certification examinations.

【 General Course 】

This course offers students over 70 different subjects to tailor make their unique programs to discover their individual strengths and interests.
